

PRACTICE

What fraction is colored?

Write two equivalent fractions for the colored part.

Use the number lines.

9. Name 2 equivalent fractions for $\frac{16}{20}$.
10. Name 3 equivalent fractions for $\frac{1}{2}$.
11. What equivalent fraction for $\frac{4}{20}$ is in lowest terms?

Copy and complete.

- | | | | |
|--|--|--|---|
| 12. $\frac{1}{2} = \frac{5}{\square}$ | 13. $\frac{3}{4} = \frac{\square}{12}$ | 14. $\frac{3}{10} = \frac{6}{\square}$ | 15. $\frac{7}{8} = \frac{\square}{32}$ |
| 16. $\frac{6}{15} = \frac{2}{\square}$ | 17. $\frac{20}{100} = \frac{\square}{5}$ | 18. $\frac{8}{10} = \frac{4}{\square}$ | 19. $\frac{18}{24} = \frac{\square}{4}$ |

Give two equivalent fractions.

- | | | | |
|-------------------|-------------------|-------------------|-------------------|
| 20. $\frac{1}{5}$ | 21. $\frac{2}{3}$ | 22. $\frac{5}{6}$ | 23. $\frac{3}{8}$ |
|-------------------|-------------------|-------------------|-------------------|

Give an equivalent fraction in lowest terms.

- | | | | |
|---------------------|---------------------|----------------------|---------------------|
| 24. $\frac{10}{15}$ | 25. $\frac{12}{15}$ | 26. $\frac{10}{20}$ | 27. $\frac{16}{24}$ |
| 28. $\frac{25}{50}$ | 29. $\frac{12}{36}$ | 30. $\frac{60}{100}$ | 31. $\frac{20}{45}$ |

Write the common factors.

- | | | | |
|------------|------------|-----------|-------------|
| 32. 15, 25 | 33. 15, 30 | 34. 9, 24 | 35. 40, 100 |
|------------|------------|-----------|-------------|
